DETAILED ACTION

Response to Arguments

Applicant's arguments filed February 11, 2005 have been fully considered but they are not persuasive. Please note that the twelve fixed points are not on the imaginary circle. Only the projections thereof are: the six fixed positions on the blade 20 are on a real circle, and the other six fixed positions on the holder 50 are on another real circle. These two circles are at equal distance from the imaginary circle. Therefore, all 17 claims still stand rejected under 112/ 1st paragraph as pointed out in the previous Office action (November 14. 2004).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 5-7 and 11-16 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Takeshita et al.

As now worded, claims 1, 2, 5-7 and 11-16 clearly read on Takeshita et al. See Figs. 1-5 and the accompanying texts (column 3, line 48 to column 6, lines 40.
